According to above time table practical examination will be conducted by online mode on whatsapp group and Google forms. Examination will be conducted as per regular practical batches. On the day of exam zoom meeting will be arranged by respective batch in-charge / examiner and question paper will be provided. Students have to write experiments as per question paper and make one PDF file of it. This PDF file should be uploaded within said time on link provided by examiner. All the process of examination will be conducted on the whatsapp group (your present practical batch group) of that particular batch/day.

Head Department of Chemistry
